

**M&R Facilities Management Ltd**

M&R Facilities Management Ltd are registered under the Control of Pollution (Amendment) Act 1989, registration number NSO/548250/CB.

We provide an assurance of compliance to allow our clients to discharge their obligations under section 34 of the Environmental Protection Act 1990 and subsequent regulations.

As our services sometimes involve third party service providers, we ensure that any company providing service on our behalf fully demonstrates that they hold appropriate licences and are diligent in the transportation, management and disposal of wastes. All service providers are checked for appropriate registration documentation, insurance cover and certification and validation of all details is carried out with relevant certification and licensing bodies at regular intervals to ensure continued compliance.

We have implemented an ISO14001 compliant environmental management system which was certified by Bureau Veritas Quality International Ltd in 2005 (Certificate Number UK06000014)
