

M&R Facilities Management Ltd will consistently provide services that meet customer and applicable regulatory requirements and protect the environment through the effective application of the system, including processes for continual improvement of the system and the assurance of conformity to customer and applicable regulatory requirements.

We will be a responsible company in protecting the environment and we are committed to complying with accepted environmental practices. In order to ensure effective environmental management, we will;

- commit to meet or exceed applicable legal and other requirements
- strive for continual improvement in our environmental management system
- minimise the creation of waste and prevent pollution.

We will, therefore, manage our processes, our materials and our people in order to reduce the environmental impacts associated with our work.

M&R Facilities Management Ltd pledges to implement and operate the ISO 14001 Environmental Management System to further enhance environmental performance. Our main objectives are to:

- Investigate the reduction of hazardous and toxic chemicals
- Reduce, reuse and recycle waste and packaging
- Improve the efficiency of energy usage
- Establish pertinent Environmental Objectives and Targets which will be continually monitored and reviewed through our Management Review process.

This policy will be communicated to all parties interested in the performance of our Environmental management system.

Robert G. Duncan
Operations Director
